

MOIZ AHMED

Full Stack Developer

+92-3192745294 @ awanmoiz709@gmail.com [linkedin/moiz awan](#) [github/moizawan07](#) Karachi, PK

SUMMARY

Full Stack Developer with strong command of **React.js, Next.js, Node.js, Express.js, MongoDB, MySQL**, and **Firebase**. Experienced in building responsive, scalable web applications with clean UIs and solid backend architecture. Proficient in developing RESTful APIs, handling both **SQL** and **NoSQL** databases, and delivering full-stack solutions that are secure, maintainable, and optimized for performance. Skilled in deploying applications, integrating third-party services, and following best practices across the development lifecycle. Passionate about solving real-world problems through code and contributing to efficient, collaborative development environments.

EXPERIENCE

Frontend (intern)

Code Alpha

02/2025 - 04/2025 Remote

Enjoyed the valuable opportunity to learn and grow rapidly, gaining deep and practical insights into the software development process.

- Collaborated closely with the team on designing and developing responsive, highly user-friendly, and efficient web applications.
- Gained hands-on experience in **React.js** and **JavaScript** while contributing to various projects.
- Significantly enhanced problem-solving, debugging, and analytical skills through hands-on practical tasks and complex challenges.
- Worked remotely with **Code Alpha**, where I gained hands-on experience on real-world frontend tasks and learned how development teams collaborate on actual projects.

EDUCATION

Intermediate in Computer Science

CMS College of Pakistan

2024 - 2026 Karachi, Pk

- Currently studying Intermediate in **Computer Science** at CMS College, focusing on the **fundamentals** of computing and **technology**.

Web & App Development

saylaniTech

2024 - 2025 karachi, Pk

- Completed a Web and App Development course with a focus on **Full Stack Development**, gaining hands-on experience in building **modern, responsive**, and dynamic **applications** using industry-standard practices.

PROJECTS

TekVibe eCom (Mern)

04/2025 - 05/2025 remote

TekVibe eCommerce Platform using MERN Stack

Developed **TekVibe**, a professional **eCommerce platform** built with the **MERN stack**, featuring multilingual support (English, Urdu, Arabic, Chinese), an **AI-powered chatbot** for product-related queries, and a secure **role-based access system** (Admin, User, Employee). Focused on electronics like mobile phones, cameras, and headphones.

Event Booking & Approval System

onsite

Developed an **Event Booking & Approval System** during a **mini hackathon**, built within a few hours using the **MERN stack**.

The system allows **users to book events**, while **admins can approve, reject, or schedule** them with full control.

Focused on building a **real-time, responsive interface** and implementing efficient **CRUD operations**.

Enjoyed working in a **high-pressure, time-bound environment**, showcasing quick thinking and full-stack skills.

PROJECTS

Quick Chat (Full Stack Chat application)

📅 05/2025 - 06/2025 📍 remote

Real-Time Full Stack Chat Application with Authentication and File Sharing

A feature-rich full stack chat app built with Node.js, Express, MongoDB, and React. It includes secure JWT-based authentication, allowing users to sign up, log in, and manage sessions. Users can exchange real-time messages and files through WebSocket (Socket.IO), with smooth, live communication. Designed with a clean and responsive UI for a modern user experience across all devices.

SKILLS

Front-end stack

JavaScript	ES6	TypeScript	React.js	NEXT.js	MUI	Tailwind	Ant Design	BootStrap	CSS
HTML	DOM								

Back-end stack

Node.js	Express.js	MongoDb	Socket.IO	RESTful APIs	JWT (Authen)	MYSQL	JSON	Firebase
---------	------------	---------	-----------	--------------	--------------	-------	------	----------

Others

GIT & Github	Postman	UI/UX	Responsive Web Design	Vercel	NPM	Render	SEO
--------------	---------	-------	-----------------------	--------	-----	--------	-----
