FARHAN KHAN

Karachi, Pakistan | +92 313 1260230 | lestrofarhan@gmail.com | linkedin.com/in/lestrofarhan | github.com/lestrofarhan

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
Frontend:	React.js, Next.js (App Router), Zustand, Redux Toolkit, Tailwind CSS, Framer Motion
Backend & Databases:	Node.js, Express.js, MongoDB, PostgreSQL, RESTful APIs, Socket.io, Firebase
Tools & Workflows:	Git, GitHub, Postman, Vercel, Docker, AWS

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Saylani Tech Limited — Karachi, Pakistan (2026 – Present)

- Architected and deployed full-stack web applications utilizing React.js, Node.js, and Express.js, ensuring scalable codebases.
- Designed and optimized structured MongoDB schemas and queries, improving data retrieval efficiency.
- Collaborated within a fast-paced development environment to deliver production-ready features under strict sprint deadlines.

Frontend Developer | Entrovex — Remote (2025 - 2 Months)

- Developed highly responsive user interfaces using React.js and Tailwind CSS, ensuring mobile-first responsiveness across all core views.
- Integrated RESTful APIs into frontend applications, optimizing state management and reducing re-render overhead.
- Utilized Git and GitHub for explicit version control and collaborative code reviews within a remote engineering team.

TECHNICAL PROJECTS

AI Video Course Generator (Generative AI SaaS)

- Engineered a high-performance Gen AI platform featuring an automated text-to-video pipeline and agentic workflows to dynamically generate structured educational courses.
- Implemented asynchronous API orchestration to handle intensive video rendering tasks while maintaining an optimal user experience.

Real Estate Marketplace (Full-Stack Platform)

- Built a comprehensive, production-ready full-stack platform using the MERN stack.
- Engineered a secure, real-time bidirectional messaging infrastructure utilizing Socket.io for instant agent communication.

Lumina (High-Performance Blog Platform)

- Created a minimalist blogging platform leveraging Next.js and TypeScript for strict type-safety and robust architecture.
- Leveraged SSG and ISR to maximize SEO optimization, page speed, and server-response latency.

EDUCATION & CERTIFICATIONS

Modern Web Development Certification | Saylani Mass IT Training — **Graduated – 2026**

Matriculation (SSC) – Science | Bahria College DHA Phase II — **Graduated – 2025**
